Professional Experience

Sr. Frontend Developer – Sciox LLC

December 2023 - June 2025 | Chapel Hill, North Carolina, United States

Website: <https://sciox.ai>

As a senior frontend developer at Sciox LLC, I was responsible for developing and maintaining the core technology behind the platform.

My key responsibilities include:

- Designing and implementing scalable software solutions to meet the needs of AI-driven data analysis.
- Leading the technical architecture and development process for new features.
- Optimizing performance and ensuring the seamless functionality of AI tools across various use cases.

Sr. Frontend Developer – NRL Media Inc (DBA NewRich Network)

October 2022 - November 2023 | Lewes, Delaware, USA

Website: <https://newrich.com>

- Led creation of all frontend components, improving efficiency by 25%.
- Integrated RESTful APIs endpoints in frontend, ensuring efficient data handling and real-time application performance.
- Collaborated with product managers and stakeholders in agile sprints to deliver features on time, translating complex requirements into intuitive UI solutions.
- Mentored team members, reviewed code and provided insights to improve code quality and ultimately the overall optimization of web apps.

Frontend Developer – Austin Cryo Venture (DBA Restore Hyper Wellness)

February 2021 - March 2022 | Austin, Texas, USA

Website: <https://restore.com>

- Built the company's internal CRM interfaces using React.js and implemented APIs with Apollo GraphQL.
- Integrated responsive UI elements and functionalities to enhance the overall user experience.
- Collaborated with the design and backend teams, reviewed code and provided insights to improve code integrity and efficiency.
- Actively participated in scrums and managerial meetings to select and implement application's architecture.

Frontend Developer - Phoenix Technologies (PVT.) Limited

October 2018 - November 2020 | Karachi, Sindh, Pakistan

Website: <https://phoenixtechnologies.co>

- Developed user-friendly web applications using HTML, CSS, and JavaScript.
- Collaborated with UX/UI designers to transform designs into interactive web pages.
- Participated in Agile development cycles, ensuring timely delivery of new features.

Frontend Developer – AppBakerZ (PVT.) Limited

January 2017 - September 2018 | Karachi, Sindh, Pakistan

Website: <https://appbakerz.dev>

- Used markup language to create user-friendly web pages.
- Applied front-end optimizations to boost website speed and enhance user satisfaction.
- Conducted thorough testing across browsers and platforms to guarantee seamless functionality across diverse devices.

Education

BS in Software Engineering (2016 - 2020)
Indus University, Karachi, Pakistan

Projects

- **CRM Development:** Built CRM system with React.js, Material UI, and GraphQL, streamlining internal operations with scheduling and record management, enhancing productivity.
- **E-commerce Platform:** Developed a responsive e-commerce site using React.js and integrated with Shopify APIs to enhance user experience and checkout processes.
- **Real Estate Marketing Website:** Created a WordPress-based real estate website with custom theme and plugins, improving site speed and driving user engagement by 40%.
